GBPT Circulating Supply attestation report prepared for KPMG Audit LLC by Hash Data.

This report was generated on 18 January 2023 22:06:00 UTC.

This report documents the Total Supply and Contract Implementation on Ethereum (Mainnet) of **poundtoken¹** as of **31 December 2022 23:59:59 UTC** (31 December 2022 23:59:59 UK). The latest mined block as of this date was block number **16308189**.

The Smart Contract proxy at address [0x86B4dBE5D203e634a12364C0e428fa242A3FbA98](#) is implemented by contract at address [0xf08421CE7c9e57aCBd183A92e295809Fcb6325c3](#).

Total supply of poundtoken on 0x86B4dBE5D203e634a12364C0e428fa242A3FbA98 as of 31 December 2022 23:59:59 UTC stands at:

GBPT in circulation	3,139,040.88 GBPT
---------------------	--------------------------

Tokens in circulation ²	3,139,040,880,000,000,000,000,000
------------------------------------	--

Notes:

- 1. The Name of the token reflects the name as stored in the Smart Contract as of block 16308189*
- 2. The "Tokens in circulation" value reflects the total number of atomic units of tokens (smallest denomination) in circulation as reported by the Smart Contract as of block 16308189, where 1 GBPT is represented by 10¹⁸ units*

A handwritten signature in blue ink, appearing to read "Daniel Botha", written over a horizontal line.
